

August 6, 1971

MEMORANDUM TO THE LEAF AND BLENDS COMMITTEE

In the absence of the Chairman, Mr. Wm. D. Hobbs discussed with members of the Committee the following recommendation:

Change CAMEL, WINSTON, and SALEM burley blends to utilize 1967 Mexican burley tobaccos at a rate of less than 11 of the total blend. At this rate, the inventory of Mexican tobaccos will be exhausted by the end of 1971. Attached are copies of the recommended blend changes and results of tests using Mexican tobaccos in the blend at a higher rate than in the recommended blend.

The Committee approved the above recommendation to become effective August 27, 1971.
