W. B. Conway

Best regards,

Germany.
If possible, we would like to discuss your evaluations in the
forthcoming flavorist's seminar. Starter samples have been sent to
327619 - Same as 327618 except a different flavor which is same as
327617 - Same as 327618 except a different flavor.
327620 - No licorice on barley prior to CID. All the licorice
spread across total lining and inner blend.
327618 - No licorice on barley prior to CID and instead all the
paper and band over licorice as top dressing.
327616 - Control. Licorice applied to barley prior to CID.
As agreed, we are sending you modified CID samples for your evaluation.
The purpose of this exercise was to examine the effect of applying
licorice at different times before or after CID. The sample
descriptions are as follows:

Subject: Modified CID samples
