COMPANY

Memorandum

40 500 (1-40)

TO: Mr. R. J. Mitchell

FROM: D. K. Shipley

DATE: 6/30/94

SUBJECT: In-Laboratory Cigarette Panel L94-58:
RVMB23-4* (Test) Versus RVMB23-3*1 RIVIERA KE (Control)

An in-laboratory smoke panel test was conducted, using coded cigarettes, to compare the smoke appeal of the above products. Panelists were asked for preference and comments. Results were:

	Preference
Test	5
Control	1
No Choice	4

Comments

Panelists' comments indicated that the Test cigarette was a smoother smoke with more balanced taste and lower menthol delivery than the Control product.

*Both: 1.9Y/39,000 w/9500 PW @ 37 PG, Non-perforated cork tipping, 753 paper.

DK Shipley
