Dear Staci:

This letter confirms our telephone conversation today, authorizing Burke Marketing Research to conduct two projects:

LaMark G 93 CPT	1984-2683
LaMark G 100 CPT	1984-2693

Attached are copies of the proposals and designs for these tests. Also, you will find the product codes and amount of product ordered. Cost authorized for each of these projects is \$57,000.

Staci, since our last CPT together, a Product Testing Methodology Task Force has issued guidelines regarding questionnaire order. Specifically:

"Overall ratings can be influenced by whether overall likeability is asked before or after attributes in the questionnaire. The task force agreed that the order of the questionnaire would be 1) dislikes and likes in an open-ended format, 2) attribute ratings, and 3) likeability or preference to own brand."

Please be sure to conform to this question order when designing any and all future CPT questionnaires.

I will inform you of the final shipment date. Let me know if any changes are necessary in the following address:
